

## ROUTE 4: LA VALL DE LA RECTORIA-VALL D'EBO

From Calpe you have to go towards Benissa by the N-332 A-road and take the AP-7 motorway towards Valencia up to the exit n. 62 (29 km). You can also go to Ondara by the N-332. From there towards Beniarbeig by the CV-731 B-road.

### BENIARBEIG

Found at the entry of the Vall de la Rectoría, on the south side of de Sierra Segària, in the low basin of the river Girona, situated near the left side.

### DAS RECTORIA-TAL

Its scenery, the beauty of its lands and the stillness of its villages make this valley one of the most beautiful ones on the Costa Blanca. It is located on the mountain, with a scenery composed of almond trees, olives trees and carob trees, and the close plains with the smell of orange and lemon blossom of the lands of citrus fruits.

### SANET I NEGRALS

At the foot of the Sierra de Segària, this village offers an excellent panoramic views.

### BENIMELI

This is a quiet village located in the middle course of the river Girona with an attractive natural environment which favors the practice of trekking.

### EL RAFOL D'ALMUNIA

Historic capital of the region La Marina Alta. Its main activity is citrus fruits cultivation.

### SAGRA

The last bastion of the Moorish people who in 1609 revolted against the Real Orden, which tried to expel them from their lands. Its narrow and devious streets recall the Muslim urban structure.

### TORMOS

Situated at the foot of the Sierra de Resingles. From the top of the village we can contemplate the Parque Natural del Montgó (natural reserve)

We return to Sagra and from this village, by the road towards Pego, we turn off towards Vall d'Ebo.

### LA VALL D'EBO

Makes its way towards the sea through a gentle slope protected by the Sierra de la Carrasca and watered by the river Girona, here named river Ebo. Ebo is also the only village that remains of a large number of settlements which disappeared as a consequence of the expulsion of Moorish people. The valley shows its great natural wealth by its reservoirs, charms and a large number of caves. From this valley up to the Vall de Laguar runs the Barranc de l'Infern (ravine). This ravine is one of the most beautiful of the Comunidad Valenciana, which its vertical walls of polished stone that offer interesting climbing to climbing and rappel amateurs.
