

NAUTICAL TOURISM

Calpe has a comprehensive range of nautical facilities spread out across its 13km of coastline, which make it one of Spain's leading nautical destination for both competition and leisure.

Less than 10 minutes from the city center there are 3 marinas with 460 moorings, where you can do numerous activities such as scuba, diving, rowing, sailing, windsurfing, parasailing, water skiing, and sea excursions, as well as introduction, specialization, and qualification courses or any other additional services that you need.

Calpe's waters have been the home of numerous nautical events for years.

Scuba Diving

One of Calpe's greatest treasures is hidden beneath its waters. Diving into them allows you to experience a spectacle of nature, where time slows down, the dimensions are transformed, and you feel transported to Another world.

The richness of its depths provides numerous diving spots and underwater itineraries around the Peñón de Ifach and Morro de Toix such as Las Arcos, El Racó, El Paseo...

Immerse yourself in the silence of our sea and lose yourself in the labyrinths of rock arches and multicolored tunnels of corals, sponges, and anemones, where large lobsters and conger eels will surprise you while barracudas, bream, or damselfish swim past forming spectacular schools of fish.

If you are less adventurous, grab your goggles and fins and enjoy snorkeling in a cove or explore the sea by hiring an excursion boat.

Waves, winds and boards

Calpe's conditions and the range of services you will find along its coast allow you to practice, learn, or improve your navigation skills in any form you can imagine, such as windsurfing, kitesurfing, paddle, boarding, wakeboarding, water skiing, surfing, bodyboarding, jet skiing, kayaking, canoeing and catamarán sailing... at various diving centers and sailing schools.

If you are a stalwart of other water sports such as sport fishing, underwater caving or psicobloc (rock climbing from the sea), Calpe is your own personal paradise.

Sea Excursions

Climb aboard one of the excursión boats at the Port of Calpe and contemplate the spectacular views of the bay and the richness of its depths thanks to the underwater viewing they provide.
